Formulary introduction

The Florida Health Care Plans formulary is an extensive list of FDA approved brand and generic drugs used to treat the most common medical conditions.

The FHCP Formulary is developed by FHCP's Pharmacy and Therapeutics Committee (P&T). The committee consists of physicians, pharmacists, and nurses who review drugs on the basis of safety, efficacy, tolerability, and cost. The P&T Committee reviews and updates the drug list quarterly. New drugs and newly available generics are added as needed, and drugs that are deemed unsafe by the Food and Drug Administration (FDA) are immediately removed.

Your prescription drug benefit provides coverage for drugs listed in each of the therapeutic classes of the FHCP Formulary. The FHCP Formulary represents the major therapeutic classes and should serve as a quick reference to you, your physician, or pharmacist for those covered drugs within the classes listed. Information on drug coverage for a non-listed therapeutic drug class should be directed to an FHCP pharmacist or physician. If your physician prescribes a drug that is not covered, show your physician this list, and ask the physician to prescribe a drug from within the FHCP Formulary.

Any drug not listed in the FHCP Formulary is considered a non-covered drug and is subject to a higher out of pocket costs.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that FHCP does not cover your drug, you have two options:

- Take the formulary to your doctor and ask him or her to prescribe a similar drug that is covered by FHCP.
- You can ask FHCP to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Formulary?

You can ask FHCP to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make:

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, FHCP limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, FHCP will only approve your request for an exception if the alternative drug is included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition, and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier or utilization restriction exception. **When you request a formulary, tier or utilization restriction exception you must submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 14 days of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 14 days for a decision. If your request to expedite is granted, we must give you a decision no later than 24 to 72 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing Member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a Member of our plan. For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply (unless you have a prescription written for fewer days) when you go to an FHCP pharmacy. After your first 31-day supply, we will not pay for these drugs, even if you have been a Member of the plan less than 90-days.

Drug transition for new FHCP members

FHCP pharmacies will dispense a one-time 31-day supply of the current transition drug, excluding specialty drugs, to allow you and our physician(s) to discuss possible formulary alternatives, request a prior authorization, or, in the event the physician(s) deems the non-formulary drug to be medically necessary, request a formulary exception. Specialty drugs will require review and authorization through the Referral Department prior to coverage.

How much will my prescriptions cost?

Your pharmacy benefit and the drugs listed in the formulary are assigned a “TIER.” There are seven (7) Tiers in the Formulary. Generally, the higher the “Tier,” the higher your cost will be. Carefully review your Summary of Benefits Coverage to ascertain if you have a pharmacy benefit and/or any pharmacy benefit limitations.

For more detailed information about your FHCP prescription drug coverage, please review your Certificate of Coverage, your Summary of Benefits Coverage and other plan materials for your cost sharing and any benefit limitations (such as “Generic Only” option).
